Certificate of compliance of European Regulation 1907/2006 (REACH)

Based on our current knowledge of our own process, and on the qualitative and quantitative data and information provided by our raw materials suppliers, or found in the standards commonly applicable to our products, we certify hereby that our products are compliant with the requirements imposed by Regulation N°1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), and specifically that the following substances are not intentionally used or added at or above 0,1 % in the manufacture of those products:

- Substances from the Candidate List of Substances of Very High Concern for Authorisation (SVHC) updated by ECHA on January 23rd, 2024

Concerning the requirements of the REACH Regulation, we are regularly reviewing our supply chain in order to guarantee that all substances contained in our preparations and shipped by Sun Chemical Advanced Materials, Morges site, into Europe, in quantities exceeding 1 ton/year, are covered by the registration of an entity upstream in our supply chain.

- For the substances purchased within the EU, the REACH registration is covered by re-importation exemption according to Article 2(7)(c) of the REACH Regulation.
- For the substances purchased outside of EU, the REACH registration will rely on an Only Representative appointed by a non-EU entity upstream in our supply chain, which is covering, in their registration, the quantities of Sun Chemical Advanced Materials, Morges site.

Our Material Safety Data Sheets have been established according to the Guidance on the compilation of safety data sheets described in Annex II of the REACH Regulation.

Please be assured that we evaluate on a regular way with our suppliers every purchased substances and products in order to continue to supply you with our actual range of products and in full compliance with the REACH requirements.
